

Allergy Or Other Medical Condition?

EMS Bands

EMS Bands are light, comfortable, Silicone bracelets that alert medical personnel to your previously diagnosed medical condition.

EMS Bands speak for you when you cannot.

OUR STORY

Our daughter suffers from a potentially life threatening allergy to penicillin. She had recently turned four and we found that most traditional medical awareness bracelets are not quite right for her. They are expensive, heavy, and there was the risk of her easily losing such a valuable item. We would also have to either change the sizing every few years, or use one that is much too big. My husband and I started EMS Bands to offer an alternative to traditional medical condition awareness bracelets. The lower cost, greater comfort, and flexible 100% Silicone EMS Bands are a great solution to our daughters changing needs.

ADVANTAGES

- * Large, easy to read text, and medical symbol make EMS Bands immediately identifiable
- * Message / logo shown 3 times and can be fully seen from any position
- * Soft, pliable, 100% Silicone
- * Smooth edges will not jab, pinch, or snag on skin. More comfortable than traditional metal alert bracelets
- * Hypoallergenic, Latex free
- * Tough. Will stretch up to 3x their size before breaking
- * Kid friendly
- * Lower cost than traditional alert bracelets
- * Less than 1/2 the weight of other metal medical condition bracelets
- * Waterproof. Resistant to UV fading and pool chlorine
- * Will not rust or discolor skin
- * Metal detector and x-ray friendly

MEDICAL CONDITIONS

- Asthma
 - Insect Sting Allergy
 - Peanut Allergy
 - Penicillin Allergy

SIZING GUIDE INSTRUCTIONS: Cut out the Sizing Strip below. Wrap around wrist. Make the strip comfortably snug. Read where strip overlaps the 'Start' line. Closest larger 'Size Line' will be the recommended size. If the 'Start line' lines up with a 'Size Line', than it is up to your preference how much extra room you want. Loose is generally better than snug.

Allergy Or Other Medical Condition?
